Professional Summary

Motivated final semester BSIT student with hands-on experience in MERN stack, AI and ML. Strong in web development, cloud technologies and real-world machine learning problem solving. Excellent team player with strong communication and time management skills.

Technical Skills

- Programming Languages: JavaScript, Python, C++
- Technologies & Frameworks: MERN Stack (MongoDB, Express, React, Node.js), Cloud Computing
- Artificial Intelligence, Machine Learning

Soft Skills

- Time Management
- Team Work
- Problem Solving
- Effective Communication

Projects

EcoHub – MERN Stack E-commerce Website

Developed a full-featured e-commerce platform using React, Node.js, Express and MongoDB. Includes user authentication, product listings and real-time cart system.

Machine Learning Taxi Fare Prediction

Built a machine learning model to predict taxi fares based on trip distance, time and location. Used regression techniques with Python and scikit-learn.

Education

BS Information Technology – University of the Punjab

8th Semester (Final exams ongoing) | CGPA: 2.93

Certifications & Courses

- MERN Stack Development Course
- Cloud Computing Fundamentals
- AI & ML Course
